

New York Stock Market

New York, February 20.—Wide fluctuations of the day in the stock market were restricted to the less active stocks. The favorite issues moved within a narrow range and were dull and heavy. Among the less active declines were larger, in some cases running up to 6 or 8 points. Liquidation of the inactive stocks has been a feature of the recent decline in the general market. The spirited buying movement, which was in progress when the market closed yesterday, was not followed up to-day, and a heavy tone developed. The market was subjected to no severe pressure and few of the prominent stocks moved as much as a point below yesterday's close. Union Pacific, Reading, Northern Pacific and Steteling were most susceptible to pressure. Sentiment was bullish and little heed was given to such favorable factors as the outlook for peace in Mexico, the more cheerful feeling abroad and an excellent statement for January of Baltimore and Ohio, the first of the large railroads to make its report. Western conditions apparently were outweighed by the importance given to the proposal to double the State tax on stock transfers. There was an easier tendency in the money market. Another small gold engagement for South America was arranged to-day. Bonds moved narrowly and irregularly. Total sales, par value, \$2,000,000. United States bonds unchanged on call.
